**Light Kit Assembly:** For use with 6000 Series Hoods listed above when used with NuTone Wall Fans. Includes Light Housing Assembly and "on-off" dials for light and fan. (Light bulbs not included).

# 6000 Series Fold-Away Hood and Fan

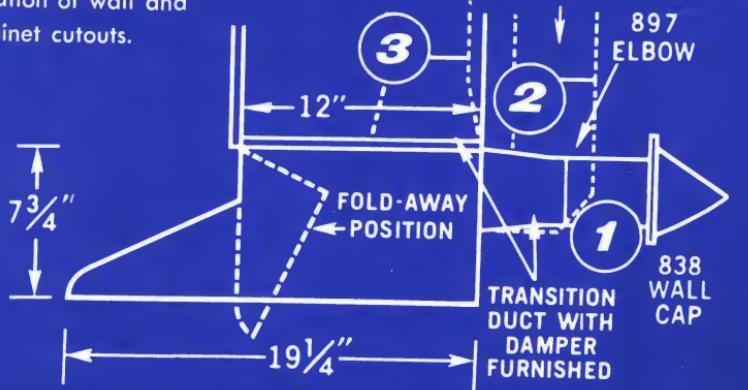

- Choice of 2 Anodized hood finishes and 11 insert panels.
- Distinctive styling. Control panel has smart "appliance look."
- Rotary Controls for light and multiple speed fan.
- Choice of Standard or Deluxe Twin Blower Power Units.
- Recessed, non-glare lighting illuminates entire range.
- Hood is 19 $\frac{1}{4}$ " deep — reaches from wall to front burners.
- Power Unit installs inside of hood — uses no cabinet space.
- "Super-suction" fans whisk away odors, grease, steam, smoke.
- Prewired "plug-in" Power Units . . . save installation time.
- Choice of Horizontal or Vertical discharge.
- Matching Splash Plates for every hood size and finish.

Exact size of a Hood is  $\frac{3}{16}$ " less than given size. Example: A 36" Hood measures 35 $\frac{13}{16}$ ".

Note:

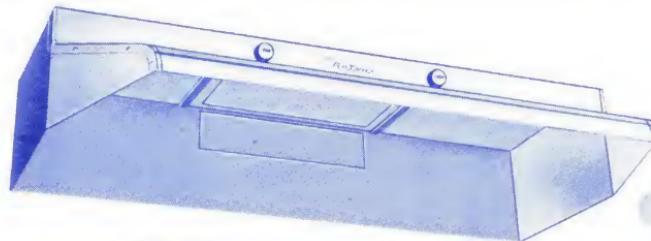

Duct Knockouts in Hood Top and Back are off-center  $\frac{5}{8}$ " to the right.  
Check installation sheet for proper location of wall and cabinet cutouts.

See pages 46 thru 49 for Ventilation Accessories

## 3200 Series Fold-Away Oven Hood-Fan

Cutaway view of Oven Hood shows Blower, Blower Housing, Filter and Switch

Exhaust fan turns "on" automatically when the Hood swings out.

Push Hood back to flush position . . . and the fan turns off automatically.

- Protects cabinets from damage caused by heat, grease and smoke which escape when the door is opened.
- Fan exhausts right amount of air without disturbing the baking temperatures.
- Filter, Hood and Fan easily removed for cleaning.
- Blends with all gas or electric built-in ovens.
- Compact, wastes no cabinet space.
- Does not interfere with oven vents.
- Includes built-in damper.
- NuTone Motor guaranteed for 5 years.
- Combine choice of Hood size with Power Unit (Model 3260) to make complete Oven Hood-Fan. (Includes Hood, Fan and Filter.)

## Built-In Stereo Music Amplifier

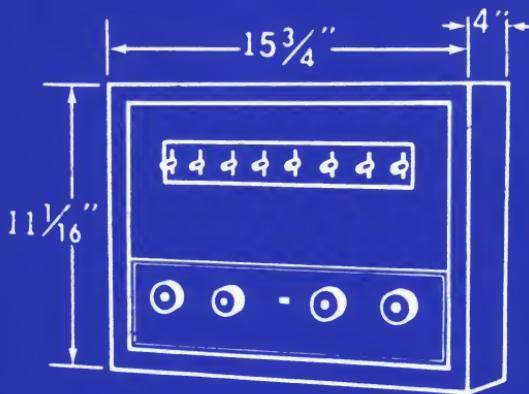

- 4-Way Stereo System Master Control, with Intercom . . . Built-in.
- Fits into standard 2"x 4" walls.
- Balance Control for perfect equalization of both stereo channels.
- Loudness Control permits low volume level listening without losing highs and lows.
- Separate Bass and Treble Controls insure musical emphasis tailored to individual taste.
- "On-Off" switch controls the entire system, including Intercom.
- Selector-Switches for individual control of Stereo plus intercom or monaural plus intercom.
- Tilt-out feature for removal of Amplifier without disturbing remote-station Intercom wiring.
- All wires are completely color-coded.
- Hand-rubbed Walnut frame, with Gold Anodized Control Panels.
- Power output: 30 watts; input: 110-130 volts, AC, 60 cycle, 95 watts.
- Transformer power supply has line voltage adjusting switch.
- Tubes: 1-6AV6, 1-EZ81, 1-12AU7, 3-12AX7, 4-6AQ5.
- Add all or any 1 of the matching Stereo Components: Stereo Radio Tuner, Stereo Record-Changer, Stereo Tape Recorder shown on page 52, plus Speakers shown on page 54.

Model 2401 — Complete (A and B Units) \$228.00 List

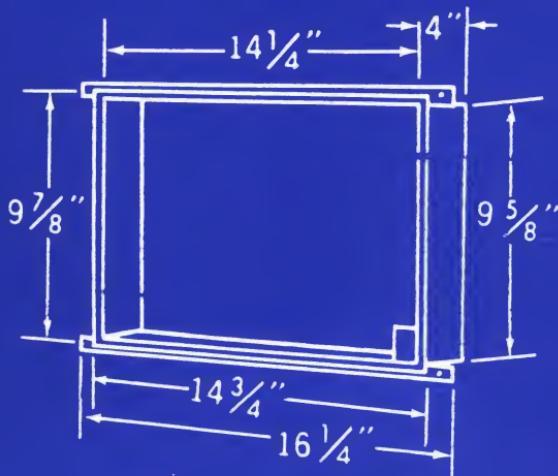

For NuTone Electronic Door Chimes that connect with this system, see Models L-70, L-71, L-72, pages 88-89

NuTone Stereo-Intercom Speakers and components cannot be used with NuTone Intercom-Radio Systems.

## Built-In Stereo Tuner, Record Player and Tape Recorder

### Hi-Fidelity AM and FM Radio Tuner Model 2402

- Permits use of 1 speaker-system for an AM program, the other for an FM program, simultaneously.
- Selective Slide-Rule tuning. No drift or fading.
- High image rejection — hi-fidelity FM de-emphasis compensation.
- Stamped, labeled controls and connectors insure correct wiring, even if the cover is removed.
- Input plug and switch for auxiliary equipment.
- Provision for adapting to FM-Multiplexed Stereo reception.
- Walnut frame with Gold Anodized control panels.
- Transformer supply line has line-voltage adjusting switch.

- Tubes: 6BA6, 6BE6, EZ80, 6AL5, 2-6AU6, 2-6AV6, 2-6AB4.
- FM sensitivity: 3 UV (20db quieting).

Complete (A and B Units) \$199.90 List

Complete \$349.50 List

### Tape Recorder Model 2405

- Hi-Fidelity, portable Tape Recorder for Stereo or monaural recording and play-back of 2 and 4-track tape.
- Has built-in recording and play-back preamplifiers.
- Finest Stereo and Hi-Fidelity reproduction, without any wear on the tape.
- Can record and play back anything going through the NuTone Amplifier.
- Fits into Record-Storage Cabinet, Model 2404.
- 2 VU Meters for accurate setting of recording levels.
- Record lock-position — no accidental erasing of tape.
- 2 speeds: 7½ IPS and 3¾ IPS. UP to 7" reels.
- Up to 4 hrs. of Stereo playing time per reel; up to 8 hrs. of monaural playing time.
- Individual volume control of each channel, for both record and play-back.

### Record Changer Model 2403

- Plays all speeds of conventional records.
- Intermixes 10" and 12" records of same speed.
- Diamond stylus (.0007") for Stereo and LP's.
- Sapphire stylus (.003" tip) for 78 RPM's.
- "Slumber Switch" — permits last record to shut off the entire system, or all but Intercom.
- Input plug and switch for auxiliary equipment.
- Spring-loaded Vinyl covered steel door cushions sudden impact.
- Power input: 110-130 volts AC, 60 cycle, 15 watts.

Complete (A and B Units) \$120.00 List

### Record-Storage Cabinet Model 2404

- Pre-wired to hold Tape Recorder, 2405.
- Without Tape Recorder, stores 40 records.

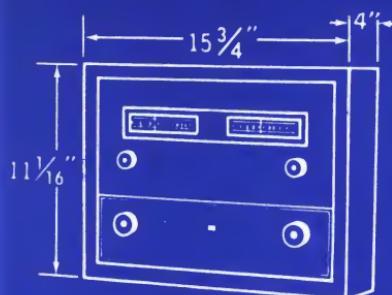

Complete \$55.00 List

## Built-In Electric Barbecue with Rotisserie Models 4000 and 4020

- "Drops-in" to any standard cabinet.
- Locks in position with tension braces.
- Fully insulated.
- Channel-Grids drain grease into removable tray.
- All parts remove for easy cleaning.
- Aluminum Mesh prevents scorch and flare-up.
- Dual Heat-Elements . . . separately controlled.
- Anodized Aluminum Front-Panel.
- Brushed Chrome surface rim.
- Rotisserie plugs right in. No cords.
- Hinged Cover retains heat, saves electricity.
- Operates on 220 volts, 3-wire service at 3200 watts.
- 3-position Switch.

• List Price \$129.95

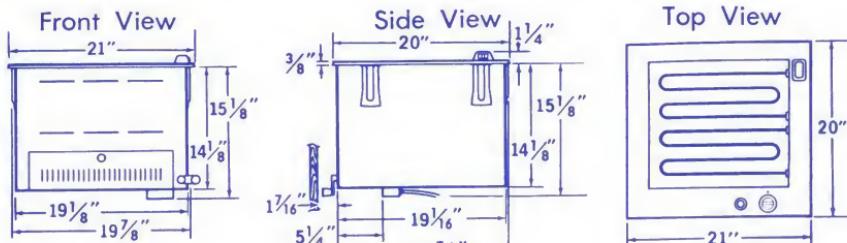

### Rotisserie Attachment — Model 4020

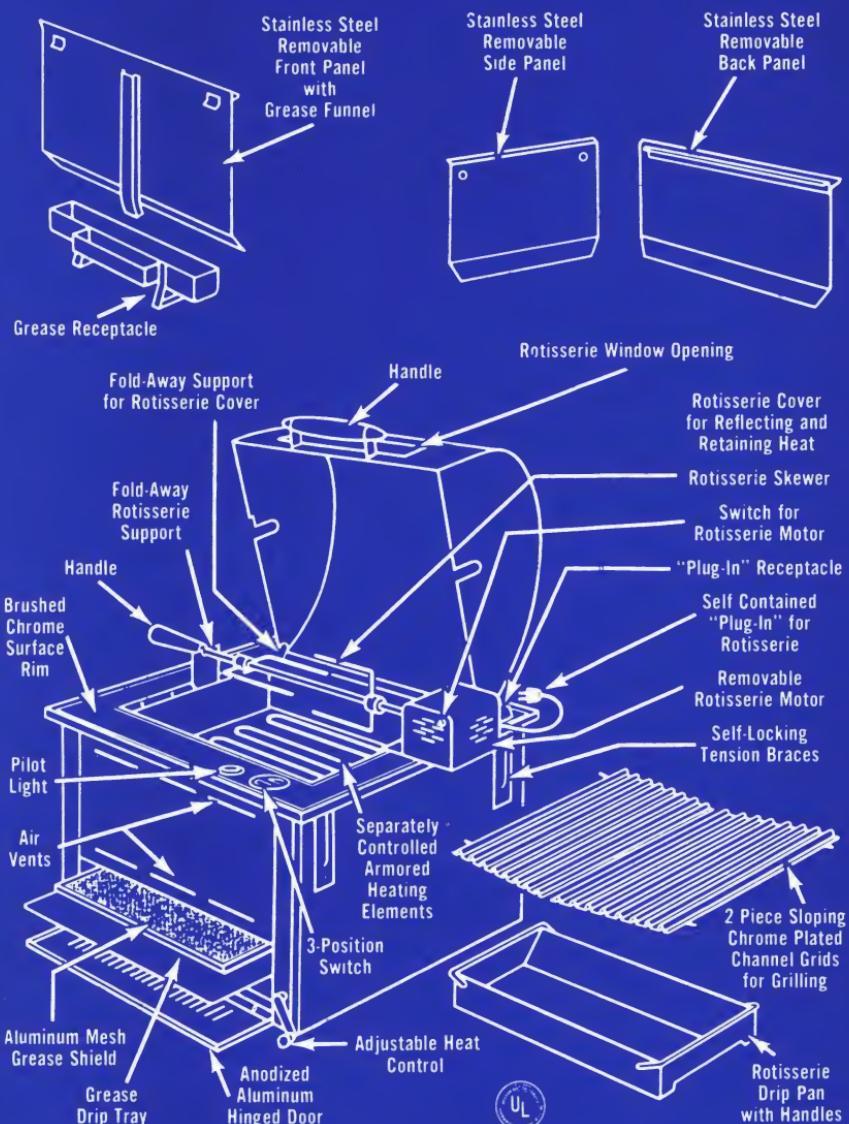

- For Electric Barbecue Model 4000.
- Includes Motor, Cover, Skewer and Aluminum Grease Pan.
- List Price \$34.95

### Serving Tray — Model 4023

- Heavy anodized aluminum — for serving barbecued foods.
- List Price \$7.95

## Specifications

## Built-In Food Center

Cut-away view of  
Model 221 Power Unit  
List Price \$45.50

- One Built-In, 6-speed Motor operates 6 lightweight appliances.
- Blender, Shredder-Slicer, Mixer, Grinder, Juicer, Knife-Sharpener fit on the counter-flush Turntable.
- No wasted space. No tangled cords. No heavy lifting.
- Stainless Steel Counter-Plate
- $\frac{1}{4}$  hp. Motor, 340 watts, 110-120 volts AC., 16000 R.P.M. idle.
- Low-speed drive, approx. 800 R.P.M. idle.
- Uses tap field, eliminating complicated centrifugal switches.
- Follow local Electrical Code for 3 amp. load.
- Motor must be grounded.
- Cut-out for housing  $4\frac{5}{8}''$  x  $10\frac{3}{8}''$ .

## Heat-A-Vent Lite – Heater + Exhaust + Light Models 9090 and 9110

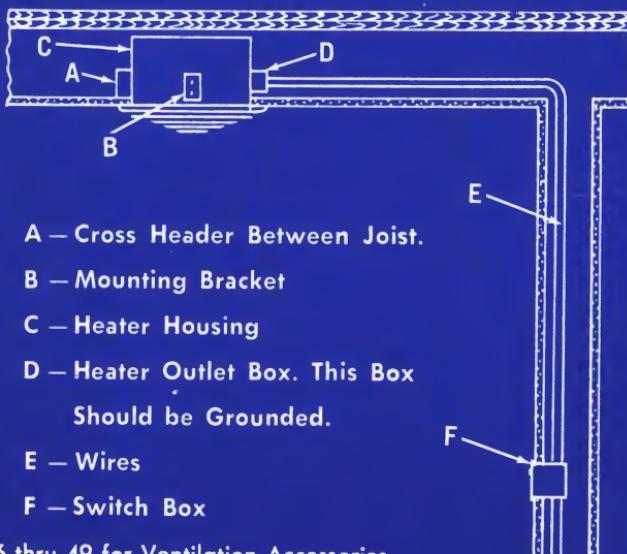

- The only Bathroom Fixture of its kind with 2 Blades! Propeller for circulating warm air — Blower Wheel exhausts odors and steam. Exhaust louver automatically closes when circulating fan for heater is moving.
- Concave grille and air diffuser made of cast aluminum.
- Enclosed Armored Heating Element for long life.
- Plaster ring hides rough edges of plaster or sheetrock.
- Spacing brackets insure correct air intake around grille.
- Plug-in "B" units for fast, easy installation.
- Thermal protected to prevent overheating.
- Units are wired for Switch use or Thermostat adaptation.
- Grille, 16" dia.; Housing 13½" dia. 7½" deep with ½" flange plus adjustable mounting brackets for 0" to ¾" plaster thickness. Uses 100 watt short neck light bulb.
- Extends only 3¼" from ceiling.
- Guarantee: 1 year on Product - 5 years on Motor.
- Has New Quiet Wall Switches (Ruby light indicates operation of heater).

## Heat-A-Lite - Heater + Light - Model 9010

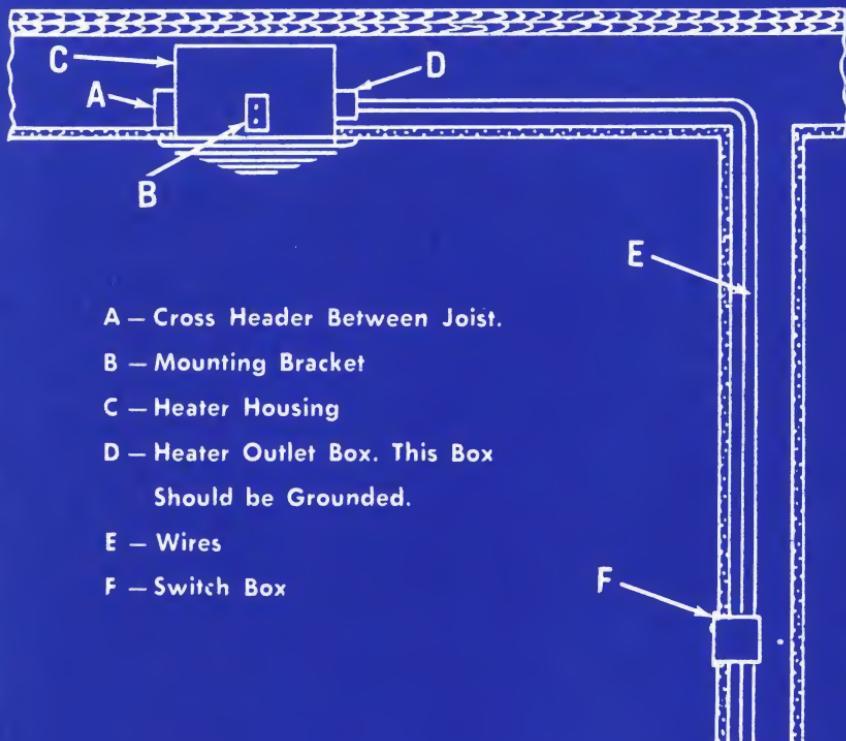

- Recirculates warm air usually wasted near ceiling.
- Extends only 3 $\frac{1}{4}$ " from ceiling.
- Plaster ring hides edges of rough plaster or sheet rock.
- Spacing brackets insure correct air intake around grille.
- Plug-in "B" Unit for fast and easy installation.
- Thermal protected to prevent overheating.
- Anodized Aluminum Grille, 16" diameter, will not rust or tarnish. Housing 13 $\frac{3}{8}$ " dia. x 7 $\frac{1}{2}$ " deep with  $\frac{1}{2}$ " flange plus adjustable mounting brackets for 0" to  $\frac{3}{4}$ " plaster thickness. Uses 100 watt short neck light bulb.
- Enclosed Armored Heating Element for long life.
- Guarantee: 1 year on product — 5 years on motor.

Model No.	Watts	B.T.U.	List Price
9010	1475	5033	49.95

NuTone Anodized Finishes will not rust, stain or tarnish

Typical Wiring Installation

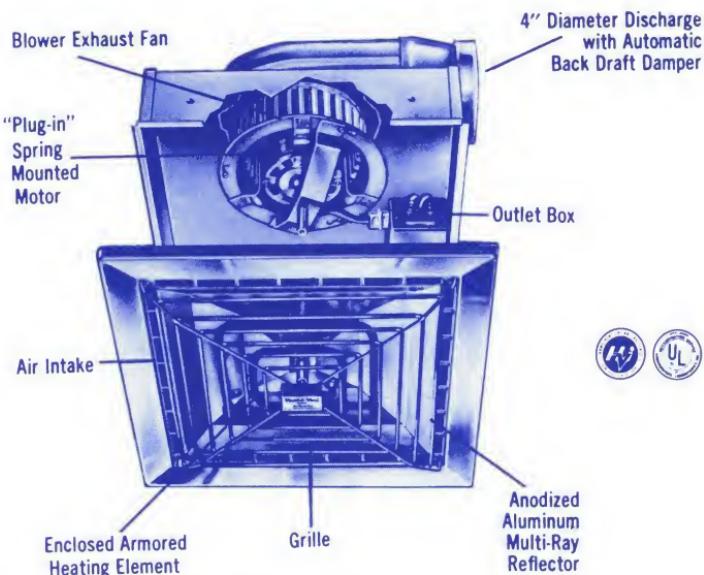

- A – Cross Header Between Joist.
- B – Mounting Bracket
- C – Heater Housing
- D – Heater Outlet Box. This Box  
Should be Grounded.
- E – Wires
- F – Switch Box

See pages 46 thru 49 for Ventilation Accessories

## Radiant Ceiling Heater + Exhaust Fan Model 9150

- Supplies quick infra-red heat all through bathroom.
- Heats and ventilates independently, or simultaneously.
- Trim, classic design — extends only 2½" from ceiling.
- Highly polished anodized aluminum Multi-Ray reflector — for maximum wide-angle heating efficiency.
- Highly attractive grille — 14" square.
- Ultra quiet operation — with new spring-mounted motor.
- Two speed motor for ventilating and heating.
- Enclosed, armored heating element for long life.
- Connects to standard (60° C.) house wire.
- Pre-wired "whisper quiet" rocker-type switches and anodized aluminum switch plate included.
- Bath light may be connected to switch control for fan.
- May be connected to line type, double pole, Thermostat. (Thermostat is not furnished).
- Has automatic back-draft damper — and discharges through 4" round duct. Housing: 11½" sq., 6" deep.
- Adjustable mounting brackets — no blocking between joists. Plug-in motor and reflector assemblies.
- Guarantee: 1 year on Product, 5 years on Motor.

## Surface Mounted Radiant Ceiling Heater Model 9285

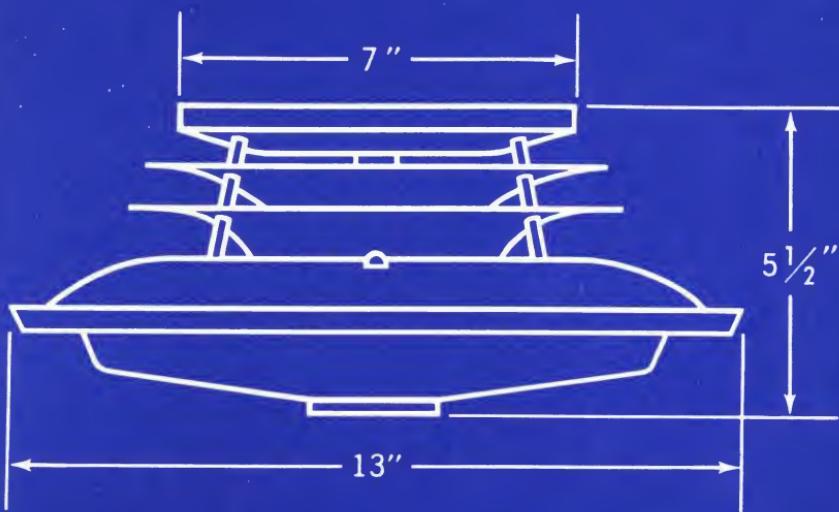

- New, highly attractive and functional shallow design.
- Heats 2 ways — with direct heat from element — and with reflected heat.
- Extends only 5½" from ceiling.
- Supplies quick infra-red heat all through the bathroom, not just the upper level.
- Completely silent — has no moving parts.
- Silver Anodized Aluminum Reflector and Ceiling Plate.
- Connects to standard (60° C.) house wire.
- Enclosed, armored heating element for long life.
- Mounts like a lighting fixture to standard junction box.
- Ideal for new home construction or remodeling.
- Reflector — 13" diameter. Ceiling Plate — 7" diameter.
- Guaranteed for 1 year.

B — Wires

C — Switch Box

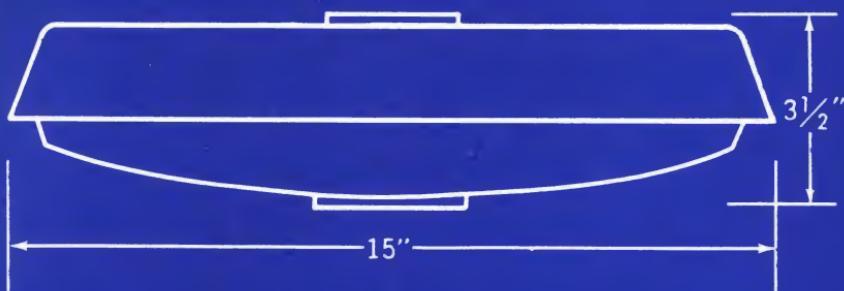

## Surface Mounted Radiant Ceiling Heater Model 9290

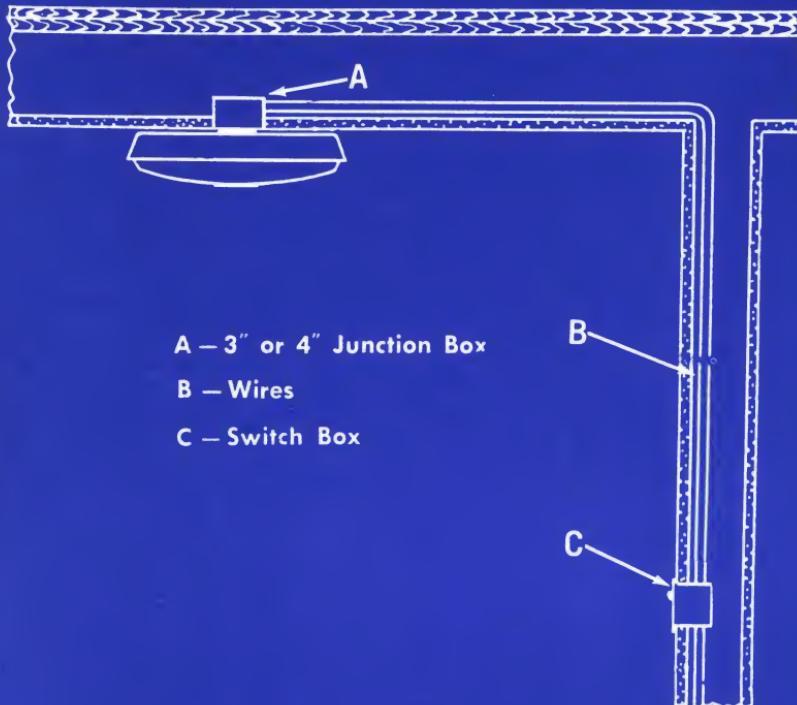

- Supplies infra-red heat all the way to the floor. Pulls air up through center of unit and disperses it around outer edge of grille. (Grille 15" diameter).
- Square perforated Anodized Aluminum Grille for maximum radiation and better diffusion of heat.
- Special armored heating element for long life.
- Connects to standard (60° C.) 14 gauge house wire.
- Mounts easily to standard 3" or 4" outlet box.
- Quiet motor with long-life bearings — heavy duty windings and high starting torque.
- Perma type lubrication for motor.
- Thermal protected to prevent overheating.
- Extends only 3½" from ceiling.
- Guaranteed for 1 year. U.S. Patents Pending.

## Built-In Bulb Type Radiant Ceiling Heater Model 9400

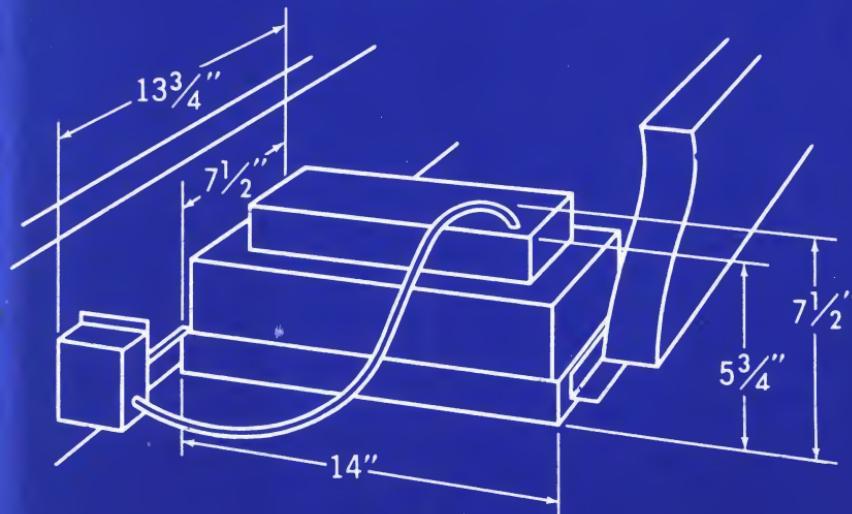

- Uses Infra-Red Heat Lamps.
- Installs parallel or at right angles between ceiling joists.
- Connects to standard (60° C.) 14 gauge house wire.
- Modular design — 2 heaters can be installed in large bathrooms.
- Satin Anodized Aluminum ceiling plate with polished borders.
- Unit is completely silent — has no moving parts.
- Mounting Brackets adjust for 0" to 3/4" plaster thickness.
- Attached pre-wired junction box with standard knockouts.
- Can also be mounted with two hanger bars included.
- Aluminized steel housing resists rust and corrosion.
- Housing can be lowered through plaster frame for easy access to junction box.
- Ideal for new home construction or remodeling.
- Use two 250 W. (R/40)\* Infra-red heat lamps (not included). Lamps are rated 5,000 hours life.
- Housing is 7 1/2" wide, 5 3/4" high, 14" long.
- Ceiling plate is 8 1/2" x 16 1/2" x 3/4".
- Guaranteed 1 year.

Model 9400

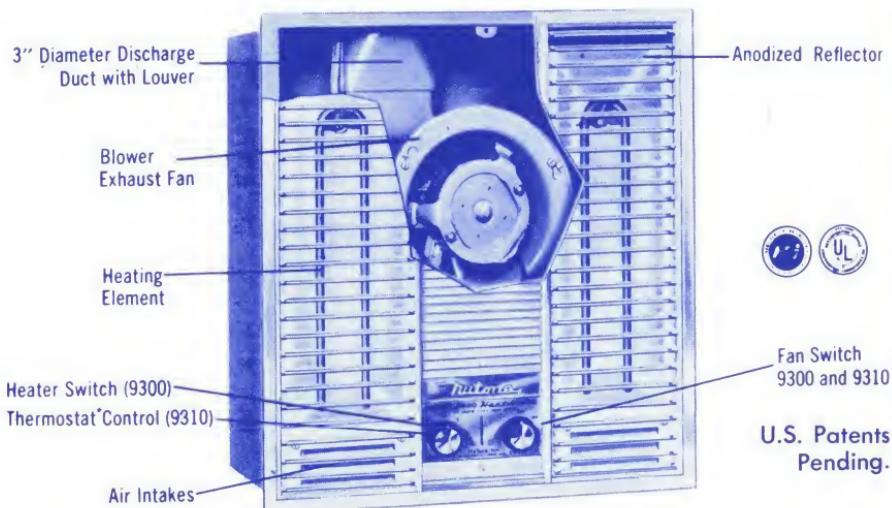

Typical Ceiling Installations

## Radiant Wall Heater + Exhaust Fan Models 9300 and 9310

\* Bi-metal Snap Action Type Thermostat. Snap action eliminates radio and television "buzzing" interference, and greatly prolongs thermostat life.

- Electric wall heat plus ventilation in one compact unit,
  - avoids double cutouts and double wiring.
- Cushion mounted motor with super quiet blower fan.
- Heater and fan operate at same time or separately.
- Two armored heating elements — use both for 5460 BTU or use single element for 2730 BTU.
- Special receptacle permits optional plug-in of fan motor so that light switch can also control fan.
- Plug-in connections for fan and heating elements.
- Connects to standard house wire. May be wired to 117 Volts or 234 Volts three wire service, 60 cycle AC.
- Satin Anodized Aluminum grille frame and reflectors.

### Model 9310

Same as Model 9300 except that the thermostat controls the operation of the heating elements (5460 BTU). The thermostat (Double pole, Bimetal Snap Action\* Type) has temperature range of 30° F. to 100° F.

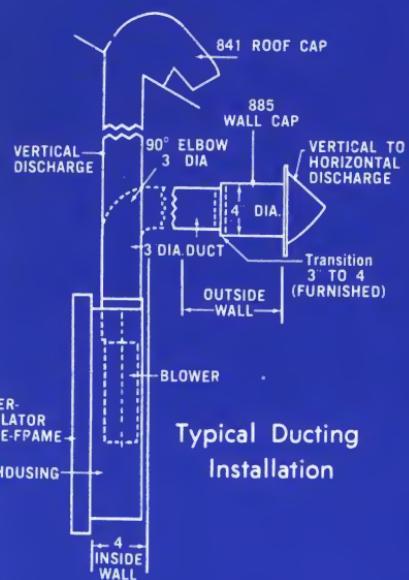

Model 9300 and 9310 Specifications: Outside Grille Frame 16" wide, 18" high. Housing 14" wide, 16" high. Discharge duct, 3" diameter.

- Guarantee: 1 year on product — 5 years on motor.

\*All NuTone transformers have a "Life-Time" Guarantee. Meet new U. L. requirements for 120 volt primary rating. Contain automatic resetting circuit breaker—protects against overload or short circuits—prevents ambient tripping and burn-outs. Have mounting feet for open wiring locations.

New Chime Transformers — Models 101-N and 515-N — Completely redesigned, inside and out

- New automatic resetting circuit breaker—protects against overload and short circuits—prevents ambient tripping and burn-outs.
- Meet new U. L. requirements for 120 volt primary rating.
- Exclusive "quick clamp" mounting feature—fits standard knock-out—for quick and positive mounting. U. S. Patent No. 2,819,331.
- Special layer-wrapped coil sections—guard against internal short circuits.
- Mounting feet for open wiring locations

Model Number and Description	Primary—120 V. Secondary Volts	120 V. Watts	Size Height, Width, Depth	List Price
515N . . . 10 Volt, 5 VA, For chimes in small homes—and general purpose.	10	5	2½" x 1⅜" x 2"	\$2.75
101N . . . 16 Volt, 10 VA, Recommended for 2 Note Chimes—and general purpose.	16	10	2½" x 1⅜" x 2⅓"	\$3.35
301-N . . . 16 Volt, 30 VA, For oil and gas heating systems, air conditioning units, multiple chime installations, signaling equipment, etc.	16	30	2¾" x 2¼" x 2½"	\$4.52
201-N . . . 24 Volt, 20 VA, For oil and gas heating systems, air conditioning units, signaling equipment, etc.	24	20	2¾" x 2¼" x 2½"	\$4.24
320-N . . . 8-16-24 Volt — Tri-Volt. For general purpose use.	8 16 24	20	2¾" x 2¼" x 2½"	\$5.08
